

## DEV-QA Engineer - Romania

---

### About Paradox

*Founded in 1989, we are a privately-owned, multinational manufacturer delivering advanced security solutions to residential, industrial and government customers world-wide, via our ecosystem of exclusive distributors. Our award-winning research and development teams, in Canada and Israel, develop a full range of innovative security panels, motion detectors, interactive touch screens and security accessories which leverage ground breaking technologies. Paradox is proud of our state-of-the-art, ISO 9001:2008 certified, Canadian manufacturing facility which produces top-notch, dependable products.*

*At Paradox, the workplace is one of innovation, pride and excellence. We are always looking for top-notch, talented people to join our team and take advantage of the many career opportunities available in our dynamic company.*

---

We are looking for a DEV-QA Engineer to develop and execute exploratory tests as well as automated tests to ensure product quality. The main responsibility of the DEV-QA Engineer position is to help the development team to release high quality releases to QA.

### This position includes the following tasks:

- Test newly developed software, features, and record bugs or performance issues;
- Collect information about software usability;
- Create test frameworks and tools;
- Create detailed, comprehensive and well-structured test plans and test cases;
- Perform sanity testing when bugs are resolved and new software versions are released;
- Develop and run effective automation tests to ensure product's stability and performance.

### Requirements:

- Degree in Computer Science or relevant fields;
- At least 3 years working experience as QA Engineer of embedded systems;
- Excellent knowledge of QA methodologies and tools;
- Proven experience in writing and running a variety of tests;
- Ability to perceive flaws and inconsistencies;
- Detail oriented and ability to analyze complicated data sets;
- Python/Bash scripting knowledge;
- Knowledge with Jira - Advantage;
- Strong propensity for research and investigation;
- Willingness to travel abroad.
