

Electronic Technician

Paradox Security Systems is an electronics designer and manufacturer in the alarm security industry that for 29 years produced innovative and industry-leading products. We are looking to grow our development team in Canada to work on our next-generation of products.

Experience you have:

- Installation of security systems.
- Knowledge of networking and cellular communications.
- Application testing for iPhone and Android.
- Manage several projects simultaneously.
- Professional or college degree in Electronics.

What you will do:

- Develop and execute security-intrusion tests for application and infrastructure.
- Perform intrusion and attack tests on web applications to find security vulnerabilities such as risks, defects and logical errors.
- Plan, document and communicate with development teams prior to the execution of security tests.
- Document all issues and assist in their resolution.

What you can expect:

- Competitive salary, project bonus, benefits (group insurance and RRSP contribution program).
- Modern, comfortable and clean work environment.
- Flexible schedules.
- Free parking, greater Montreal area, reverse of traffic and accessible by public network.
- A world of opportunity for career growth.
- See the products come to life in our manufacturing facilities.
