

Junior SysOps Engineer

About Paradox

Founded in 1989, we are a privately-owned, multinational manufacturer delivering advanced security solutions to residential, industrial and government customers world-wide, via our ecosystem of exclusive distributors. Our award-winning research and development teams, in Canada and Israel, develop a full range of innovative security panels, motion detectors, interactive touch screens and security accessories which leverage ground breaking technologies. Paradox is proud of our state-of-the-art, ISO 9001:2008 certified, Canadian manufacturing facility which produces top-notch, dependable products.

At Paradox, the workplace is one of innovation, pride and excellence. We are always looking for top-notch, talented people to join our team and take advantage of the many career opportunities available in our dynamic company.

We are looking for a SysOps Engineer for our Research & Development (R & D) department. This person will join a strong team of multidisciplinary people to manage all server-side logic, ensuring high performance and responsiveness to interface requests.

This position includes the following tasks:

- Manage highly scalable servers in the cloud;
- Write technical design documents;
- Integration between Operations, Development and Management for deployments;
- Monitor systems to ensure maximum up-time and quality of service.

Requirements:

- Bachelor's degree in Computer Science or related field/equivalent experience;
- 2+ years in cloud Infrastructure Operation;
- Fluent English and French;
- Professional proven experience with AWS or AZURE;
- Experience with Linux administration and scripting (BASH, ZSH, Python);
- Experience with CM/CI/CD tools like Jenkins, Gerrit, Chef, Ansible, Salt;
- Experience with Nginx, HaProxy, Load Balancer;
- Experience in monitoring tools like Nagios, Prometheus, Zabbix;
- Experience with bug/issue tracking software (JIRA, Confluence etc.);
- Experience with MQ System like MQTT, RabbitMQ (an asset);
- Knowledge of Docker containers, Orchestration Process and ELK Stack (an asset);
- Ability to work independently and efficiently;
- Excellent communication skills.

Please send your CV (English and French) to email address: humanresource2@paradox.com
