

Linux System & GUI Engineer - Romania

About Paradox

Founded in 1989, we are a privately-owned, multinational manufacturer delivering advanced security solutions to residential, industrial and government customers world-wide, via our ecosystem of exclusive distributors. Our award-winning research and development teams, in Canada and Israel, develop a full range of innovative security panels, motion detectors, interactive touch screens and security accessories which leverage ground breaking technologies. Paradox is proud of our state-of-the-art, ISO 9001:2008 certified, Canadian manufacturing facility which produces top-notch, dependable products.

At Paradox, the workplace is one of innovation, pride and excellence. We are always looking for top-notch, talented people to join our team and take advantage of the many career opportunities available in our dynamic company.

We are looking for a Linux System & GUI Engineer to join our development team. The candidate will be responsible for designing, developing and implementing software applications in real time environments for both current and future security products.

This position includes the following tasks:

- Developing Paradox Linux based applications and Paradox Smart TV based applications;
- Working with video encoders;
- Participating in defining new Paradox software products;
- Working according to Paradox procedures (coding, source control, documentation, etc.);
- Working according to plans and time tables as defined for the projects;
- Admit frequent status reports regarding the work plan to management (team leader, manager).

Requirements:

- B.Sc. in Computer Science/Electrical Engineering;
- 3-5 years' experience in software development;
- Experience in C/C++;
- 1 year experience in QT development;
- JS/WEB applications development knowledge;
- Excellent communication skills (oral and written);
- Team player, task oriented and ability to take initiative;
- Fast learner and ability to manage priorities.
