

.NET Software Developer

Paradox Security Systems is an electronics designer and manufacturer in the alarm security industry that for 29 years produced innovative and industry-leading products. We are looking to grow our development team in Canada to work on our next-generation of products.

Experience you have:

- Strong knowledge of .NET web framework.
- Proficient in C#, ASP, ASP.NET, Javascript, Python, HTML, CSS with a good knowledge of their ecosystems.
- Ability to use and integrate with PostgreSQL and Microsoft SQL Server.
- Proficient use of code versioning tools such as Git.
- Ability to work with CI/CD and tools like Jenkins.
- Knowledge of Atlassian software suite (JIRA, Confluence) and Agile/Scrum framework.
- Master of IDEs like Visual Studio, JetBrains tool suite.

What you will do:

- Design, build, and maintain efficient, reusable, scalable and reliable code.
- Integrate data storage solutions with SQL Server, PostgreSQL.
- Provide and assist with end user technical support.
- Identify bottlenecks and bugs, and devise solutions to mitigate and address these issues.
- Write unit tests to improve code coverage.
- Help maintain code quality, organization, documentation, and automation.

What you can expect:

- Competitive salary, bonus, benefits (group insurance and RRSP contribution program).
- Modern, comfortable and clean work environment.
- Flexible schedules.
- Free parking, greater Montreal area, reverse of traffic and accessible by public network.
- Great opportunities for career growth.
- See the products come to life in our manufacturing facilities.
