P ▲ R ▲ D O X™

Product Information

Date:	*May 28th, 2013*
Product:	RTX3 (Wireless Expansion Module)
Subject:	Firmware version 5.20 released
Downloads:	To download the firmware V5.20, click here*
	To download the firmware upgrade instructions, click here *requires login name and password to download*

New Features: **Remote Battery Status**
The remote controls version 3.10 (1.10 for REM101) now have the possibility to have the battery supervised, this version now fully supports this option.

Resolved Issues: **PGM activation on Arming**
With the previous version, when using the Arming event as a PGM activation event, in certain conditions the PGM could activate before the system was fully armed.
