

Product Information

Date: *September 27th 2013*

Product: IPR512

Subject: New firmware release;
- V 2.40

Web To go to the IPR512 firmware download page, [click here](#)

Resolved Issues:

- Resolve an issue with the backup process of the IPR512 database that could corrupt the SD card data.
- Added measures to scan the SD card to validate possible issues and delete any suspect database. After a delete a new backup is systematically performed.

Important Notice: After the firmware update is completed, the unit will reboot. During this reboot, a validation process of the contents of the SD card will occur. This validation process may take up to 5 min. BE AWARE that the unit is down during this time.

Contact: If you require any additional information or if you have any questions, please do not hesitate to contact our Distributor support department.
