For ECO L024

To download PCS250G firmware v2.05 \*[click here](#)

For ECO N001 & M021

To download the firmware upgrade instructions, [click here](#)

*\*requires login name and password to download*

**Resolved Issues:** **SMS Message and various character fixes in Hebrew and German language**

**Not possible to use the + sign while programming an SMS phone number**

It is now possible to program the SMS phone number using the standard plus (+) sign in front of the number

**Combine short SMS messages into 1 SMS**

In non-Latin based languages, the character count was done erroneously thus in some cases creating multiple short SMS messages when only 1 should have been necessary.

**Contact**
