

## Product Information– NVX-80 FW 1.09 Release Note

**Date:** *May 27, 2014*

**Product:** NVX-80 (Indoor/Outdoor Motion Detector for Harsh Environments)

**Subject:** New firmware 1.09.27 Released.

**Downloads:** To go to the NVX-80 firmware download page, [click here](#)  
To download the firmware upgrade instructions, [click here](#)

**New Features:** New menu setting: An option now available to turn the display On or Off.  
New parameter default values for Creep sensitivity, Pet immunity and Wall tamper are now as follows:

Parameter	Previous value	New value
Creep sensitivity	On/Off	4 Levels
Pet immunity	Off	On
Wall tamper	Enable	Disable

**Resolved Issues:** Anti-Masking False Alarms: Previously the NVX-80 would enter a state which would initiate the unit into issuing false Anti-Masking messages. This has now been corrected.  
NVX80 would not always respond to a module scan in section 4005 of the Digiplex Evo programming. This issue has now been corrected.
