

Product Information

Date: *October 27, 2014*

Product: NVX80 (Indoor/Outdoor Motion Detector for Harsh Environments)

Subject: New NVX80 firmware version 1.10.000 release.

Downloads: To go to the NVX80 firmware download page, [click here](#)

To download the NVX80 reference and installation manual which includes firmware upgrade instructions, [click here](#)

Note: Before upgrading please make sure the IR Anti-Mask Mode setting is set to the INDOOR selection. Failing to do this may cause the NVX80 to lock up after the upgrade.

(The factory default setting for the Anti-Mask Mode is set to INDOOR mode.)

New Features: The IR Anti-Mask mode option is now simplified, this feature now operates at a standard preset level for both indoor and outdoor use. It was decided to combine both modes in one configuration suitable for both environments, therefore eliminating the configuration options for the installer.

Contact: If you require any additional information or if you have any questions, please do not hesitate to contact our Distributor Support department.
